Dear Sirs,

The curved lever arm system called Helo (Violent Wind Type - Aluminium Alloy 6061 T6 - Patent: No M281887) is authorised for use in competitive cycling.

This authorisation is based on the information you have provided and on the basis of our knowledge and assessments to date. It may be amended or withdrawn at any time without notice on the basis of new observations or new information obtained.

This authorisation does not constitute certification or approval for any equipment which is required to meet official standards after undergoing required testing. The authorisation of the product for use in competition does not constitute an acceptance of liability on the part of the UCI.

It is not permissible to state or to imply, directly or indirectly, that the product has received UCI approval or to use a name, mark or logo belonging to the UCI in connection with the authorised equipment.

This letter is subject to your acceptance of the conditions for authorisation and of the UCI regulations. In the event that you write to us to note your disagreement or that the conditions above are not respected, this authorisation for use in competition shall be considered null and void.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'Jean Wauthier', written over a faint, light-colored rectangular stamp or watermark.

Jean Wauthier  
UCI Technical Adviser
